After connecting the AC cord, secure the AC cord with the supplied ladder strap retaining clip assembly to prevent accidental removal from the FA-9500. Be sure to install the AC cord retaining clip before mounting the unit into a rack.

1) Wrap the retaining clip around the AC cord. (with the anchor of the ladder strap toward the unit.)
2) Insert the anchor into the hole next to the AC IN socket.
3) Lightly fasten the clip around the AC cord.
4) Plug in the power cord.
5) Slide the clip on the ladder strap toward the plug.
6) Fasten the clip tightly.
7) Gently pull on the AC cord to ensure it is secured.

"FA-9500
Quick Setup Guide

1. Rear Connectors

2. Installing the AC Cord Retaining Clip

3. Front Operation Panel

4. Connecting a Computer

5. Connecting via a WEB Browser

Open a web browser on your computer, and enter the address as http://192.168.0.10/ (factory default setting) in the address bar. Press the [Enter] key to connect to the FA-9500.

The login page is displayed.

Click Login.
The authentication dialog appears.

Enter your user name and password. (The default user name and password are set at the factory.)
User name: FA-9500
Password: foranetwork

See section 9 "Control via WEB Browser" in the FA-9500 Operation Manual for details on Web browser control screens.

Precautions

- Operate the unit only at the specified supply voltage.
- Ensure the unit is properly grounded at all times.
- Ensure the power cord and connectors are firmly connected.
- Do not access circuitry with power applied to the unit.
- Do not operate or store with the cover, panels, and/or casing removed.
- Do not operate or store in a humid, dusty, etc. environment. Doing so could result in fire or electrical shock.
- Do not allow fluids, metal fragments, or any other foreign objects to enter the unit. If any foreign matter enters the unit, turn off the power and disconnect the power cord immediately. Remove the material or contact your authorized service representative.
- If you notice any strange smells or noises coming from the unit, turn off the power immediately, turn OFF the power switch, disconnect the power cord, and contact your authorized service representative.

Select VIDEO or AUDIO by the VIDEO/AUDIO button. Every press of the VIDEO/AUDIO button alternates the menu button assignments between video and audio menus. The button indicators light green when the buttons are enabled in video menus and black in audio menus. They light orange when they are enabled. The button indicators for the menu pages are also indicated on the corresponding button pages. Pressing a menu button again returns the value to the previous value before resetting to the default value. If the unit is in the LIVE SAFE mode, see sec. 4.7.2. "Resetting to Default" in the FA-9500 Operation Manual.

- **Select VIDEO or AUDIO**
  - Move to the desired menu using double-arrow and/or single-arrow buttons.
  - The single-arrow buttons allow you to move between menus if the selected menu has multiple menu pages in the category. The single-arrow button lights up when there are more menus to be accessed in the direction. If the single-arrow button is up, the direction is not accessible.
  - Double-arrow buttons allow you to go to menus indicated in the menu list.

- **F1 to F4 control knobs**
  - Change the value of respective lines. Turn the control knobs of an LED that is lit to change the value.

<Comments on the menu list>

- **Can be navigated using double (up and down) arrow buttons**: "④" is not shown in the menu display.
- **When settings in menus shown with a black circle (●) are changed in LIVE SAFE mode, single (up and down) arrow buttons** and the LED around the control knob of which setting is changed turn red, confirming the setting change. To set the FA-9500 to the LIVE SAFE mode, change the mode setting referring to section 7.3.

- **Resetting to Default**
  - The menu is reset to OFF.
  - Replace the menu list.

- **Select VIDEO or AUDIO**
  - Move to the desired menu using double-arrow and/or single-arrow buttons.
  - The single-arrow buttons allow you to move between menus if the selected menu has multiple menu pages in the category. The single-arrow button lights up when there are more menus to be accessed in the direction. If the single-arrow button is up, the direction is not accessible.
  - Double-arrow buttons allow you to go to menus indicated in the menu list.

- **F1 to F4 control knobs**
  - Change the value of respective lines. Turn the control knobs of an LED that is lit to change the value.

- **VIDEO/AUDIO button**
  - Changes corresponding line parameters.

- **VIDEO/AUDIO button**
  - Changes corresponding menu parameters.
